Wi-Fi Health Concerns

Wireless communication technologies are a real danger, especially because of their unchecked growth, and the clear evidence of harm. Our young people, in particular, are at risk. Professor Johansson, Karolinska Institute, Stockholm

Reader Response

Having discovered in 2005 that I had become electro sensitive after many years of a build up of increasingly complex symptoms, it is pleasing to find Dr. Crofton's informative book, Radiation Rescue. It should be a recommended reading for anyone concerned about their increasing levels of ill health, which their doctors cannot help them with. She has summarised all the key pointers back to wellness at the onset of early symptoms.

Radiation Rescue

4 steps to safeguard your family from the other inconvenient truth - the health hazards of wireless technology

MOBILE/DECT PHONE ALERT ...and it's not just mobiles

The voluntary exposure of the brain to micro-waves from hand-held mobile phones is the largest human biological experiment ever. Leif Salford MD, Prof. Neurology Lund University, Sweden

Not sleeping well? Low immunity? Headaches? Dizziness? Tingling in hands? World experts caution us that radiation from wired and wireless devices can be related to these symptoms, and the following conditions: Allergies, Alzheimer's, ADD, ADHD, Asperger's, Autism, Arrhythmia, Cancer, Cataracts, ME, Depression, Electro-sensitivity, Depression, Infertility, Motor Neurone Disease, Multiple Chemical Sensitivity, Parkinson's and Sleep Disorders.

Kerry Crofton brings together, for the first time, the evidence and advice from scientists, physicians and technicians who tell us what we need to know to protect ourselves and our families. **THEY CAUTION: GOVERNMENT STANDARDS DO NOT PROTECT US.**

This easy-to-read book gives us the information and tools we need to maintain/regain our health in the digital age.

You can keep the convenience and protect our hyper-tech generation.

Discover the safer solutions for:

mobile phones, PDAs, DECT phones, wireless Internet, microwave ovens, baby monitors, fluorescent lights, electric hybrid cars and other electronics.
